

# SuperSlide II

Corrosion-resistant roller bearing action, 'big load' weight capacity, and narrow sides make this slide a great storage solution. The SuperSlide II handles up to 800 lbs in compartment depths from 36" to 90".

Order Trim Kit to desired compartment width less 4" (see list below).

SuperSlide II Kit includes (2) End Trim Pieces, Jig Kit, and (3) Mid-Rails. You add the plywood and carpet.

- Heavy Duty Roller Bearings
- 800 lb Weight Capacity
- One-direction slides lock in fully closed position.
- Two-way slides lock in center.

*Shown as installed. Slide assemblies ship with side slide assemblies and require trim kit—you create slide floor from plywood and covering (not included.)*

Part Number	Length	Width	Capacity (in lbs.)	Pulls
905893000	36"	See below	800	1-way slide
905890000	42"	See below	800	1-way slide
905891000	48"	See below	800	1-way slide
905892000	54"	See below	800	1-way slide
905895000	60"	See below	800	1-way slide
905849800	80"	See below	800	2-way slide
905849900	90"	See below	800	2-way slide

*\*Flooring Materials not included with Super Slide II*

*Trim Kit includes: (2) End Pieces, Jig Kit, and (3) Mid-rails. No flooring materials are included in the kit.*

Width determined by selecting Trim Kit width to fit compartment width less 4" (see guide to the side)

Part Number	Trim Kit End Piece Width	Compartment Opening
905849017	17"	21" Compartment Opening
905849019	19"	23" Compartment Opening
905849021	21"	25" Compartment Opening
905849023	23"	27" Compartment Opening
905849024	24"	28" Compartment Opening
905849027	27"	31" Compartment Opening
